FREE TRAINING FOR EARLY YEARS PROVIDERS: Supporting children's emotional wellbeing in early years

The Alliance is delighted to offer a training package to support early years settings including childminders, to deliver early help to children and families in Somerset.

Please join us for an interactive training session where we will focus on children's emotional wellbeing.

Through development of their practice and understanding support educators to recognise the importance of children's emotional wellbeing in the early years both within their provision and supporting families in the home learning environment.

The training is FREE to attend and will be delivered online. It is available to all early years educators, however we would encourage managers, designated safeguarding leads and SENCOs to book in the first instance.

Please use the links below to book your place:
